PAYMENT POLICY

Payment is due up front for all New Patient Appointments and testing the day of the test. We will collect your deductible, copay and co-insurance, non-covered services up front and will collect all up front for self-pay patients. "No show" new patient appointments will be charged 100.00 and established patient "No Show" appointments will be charged 50.00. Estimates will be given to you from the information given to us by your insurance company. Estimates are given as we cannot fully know what insurance will leave the responsibility of patient until a claim has been processed and paid.

Dr Bellur's office will call your insurance company to gather the information and inform you of your estimated portion. If you do not hear from the office regarding your estimated portion, please call the office before your appointment.

If for any reason your insurance company leaves you a balance above the estimate we quoted you,

You will be responsible for that balance in full. The office will keep your credit/debit card on file to run balance due after insurance payment. If your card on file is declined the office will send out 3 consecutive statements. If we do not receive your payment or if no payment arrangement is made

and met accordingly then the past due account will be turned over to collections. Please keep communications open so we can work with you.

We strive to help each patient to obtain the necessary tests to determine treatment plan and care.

We want to work with you as long as we have communication.

We look forward to serving you!

Sincerely,

Heart & Vascular Specialists

Shashi S Bellur M.D.

I _____ have read and agree to the above payment policy and will pay the estimated portion and any balance due.
