**PAYMENT POLICY**

Payment is due up front for all testing the day of test. We will collect your deductible, copay and co-insurance, non-covered services and self-pay patients. Estimates will be given to you from the information given to us by your insurance company.

Estimates are given as we cannot fully know what insurance will leave the responsibility of patient until a claim has been processed and paid.

Dr Bellur's office will call your insurance company gather the information and inform you of your estimated portion. If you do not hear from the office regarding your estimated portion, please call the office before your appointment.

If for any reason your insurance company leaves you a balance above the estimate we quoted you, You will be responsible for that balance in full. If you are unable to pay the balance in full, a payment of 3 consecutive monthly payments may be made. If you skip a month and do not let the billing office know why payment was missed then the past due account will be turned over to collections. All past due balances not paid will be turned over to collections unless payment arrangements are made and met accordingly. Please keep communications open so we can work with you.

We strive to help each patient to obtain the necessary tests to determine treatment plan and care. We want to work with you as long as we have communication.

We look forward to serving you!

Sincerely,

Heart & Vascular Specialists  
Shashi S Bellur M.D.

I \_\_\_\_\_ have read and agree to the above payment policy and will pay the estimated portion and any balance due.
